

KOK Kitchens

Website Setup Guide

Everything you need to get card payments and WhatsApp working on your website

PART A

Setting Up Card Payments (Stripe)

What is Stripe?

Stripe is the secure payment processor that will handle card payments on your website. It is used by millions of businesses worldwide. Your customers' card details are handled entirely by Stripe and **never touch your website directly**.

Step 1: Create Your Stripe Account

1. Go to stripe.com and click **Start now**
2. Enter your email address, full name, and create a password
3. Check your inbox and verify your email address

Step 2: Complete Business Verification

Stripe will ask you to verify your business. You will need:

- **Business type** (Sole trader or Limited company)
- **Business name:** KOK Kitchens
- **Business address**
- **Bank account details** (where Stripe will deposit your payments)
- **A form of ID** (passport or driving licence)

Note: This verification is required by UK financial regulations. Stripe typically approves accounts within 1–2 business days.

Step 3: Find Your API Keys

Once your account is verified:

1. Log into your Stripe Dashboard at dashboard.stripe.com
2. Click **Developers** in the left sidebar
3. Click **API keys**
4. You will see two keys:

Key	What It Looks Like
Publishable key	<code>pk_live_...</code>
Secret key	<code>sk_live_...</code> (click Reveal to see it)

Step 4: Send Us Your Keys

Please send us both keys securely:

- **WhatsApp message** to Samuel — messages are end-to-end encrypted
- **Email** to samlawal@hotmail.com

Important: Never post these keys publicly, share them on social media, or send them to anyone other than your Ophir Digital contact.

Stripe Fees

Stripe charges a small fee per transaction:

- **1.5% + 20p** per UK card payment
- **2.5% + 20p** European cards, **3.25% + 20p** international cards

These fees are deducted automatically before depositing to your bank. There are no monthly fees or setup costs.

PART B

Setting Up WhatsApp Business

Your website has a WhatsApp button that lets customers message you directly. For the best experience, we recommend using **WhatsApp Business** (a free app from WhatsApp) on the phone number **+44 7447 982712** which is already linked on the website.

Why WhatsApp Business?

- **Business profile** — shows your business name, logo, address, and opening hours
- **Away messages** — auto-reply when you're closed or busy
- **Quick replies** — save common responses (menus, prices, delivery info)
- **Labels** — organise chats by order status (New, In Progress, Delivered)

Step 1: Download the App

1. On your phone, go to the App Store (iPhone) or Google Play Store (Android)
2. Search for **WhatsApp Business** (it has a green icon with a "B")
3. Download and install it

Note: WhatsApp Business is a separate app from regular WhatsApp. You can run both on the same phone — one for personal use and one for business.

Step 2: Set Up Your Account

1. Open WhatsApp Business and agree to the terms
2. Enter your business phone number: **+44 7447 982712**
3. Verify with the code sent to that number
4. If this number is currently on regular WhatsApp, the app will offer to migrate your chats across

Step 3: Complete Your Business Profile

Go to **Settings > Business tools > Business profile** and fill in:

Field	What to Enter
-------	---------------

Business name	KOK Kitchens
Category	Restaurant
Profile photo	Your logo or a photo of your food
Address	Hertfordshire, UK
Hours	Mon–Fri 10am–9pm, Sat 11am–10pm, Sun pre-book
Email	orders@kokkitchens.com
Website	kokkitchens.com
About	Authentic Nigerian cuisine — delivery & catering in Hertfordshire

Step 4: Set Up Auto-Replies (Optional but Recommended)

Go to **Settings > Business tools**:

1. **Greeting message** — automatically sent to first-time customers. Example: “Hi! Thanks for contacting KOK Kitchens. Check our menu at kokkitchens.com or let us know how we can help!”
2. **Away message** — sent outside your business hours. Example: “We’re currently closed. Our hours are Mon–Fri 10am–9pm, Sat 11am–10pm. We’ll reply when we’re back!”
3. **Quick replies** — save common answers you send often (e.g. delivery areas, minimum order, catering info). Type / in any chat to use them.

What Happens Next

Once we receive your Stripe keys:

1. Connect Stripe to your website (takes about 1 hour)
2. Run test transactions to make sure everything works
3. Enable live card payments on kokkitchens.com

You will be able to see all orders and payments in your [Stripe Dashboard](#). Funds are deposited into your bank account on a rolling basis, usually within 2–3 business days.

Questions? Reach out to Samuel on WhatsApp or email at samlawal@hotmail.com. We are happy to help walk you through any of these steps.
